“We are committed to our customer’s success”

Maquinaria Lorenzana, more than 40 years leading innovation

ML is a family business with over 40 years of experience having reached leadership positions in the markets in which it competes. Our history has been linked to innovation since our start-up in the 70's with the self-loading concrete mixers. Since 1992, thanks to the knowledge developed on this field, Maquinaria Lorenzana began its activity in tunneling and mining market introducing state-of-the-art products, such as the Shotcrete robots or the Huron, followed by the multi-purpose transporters, among others.

Our skill of innovation has been widely acknowledge by both customers and the industry, taking our standards as a reference by other companies.

At present time, our expertise with customer and the creativity of our R+D+i department allows us to offer a complete range of solid, reliable products that can be customized according to the needs of our customers, always aiming to collaborate with their productivity and profitability.

Maquinaria Lorenzana,

Maquinaria Lorenzana dreamed that making the necessary operations at construction, infrastructure development and mining exploration would be carried out in the most sustainable and safe as possible, for our clients and their employees as well as to the societies in which we operate.

Committed to society

To this end, we focus our activities in developing and delivering products and solutions that contribute to economic and social development supporting the communities in which we are present, protecting and preserving the planet.

Our commitment and constant aim has been and will be leading innovation, safety and productivity in our sector, working side by side with our suppliers, customers and public authorities in order to incorporate new technologies and solutions in the shortest possible time to be used as a reference to other companies operating in the sector.

A clear value proposal committed to our customers' success

Our value proposal

Robust, secure and reliable products

Customize

Managing fleets

Rental equipment

Maintenance and repair

Protection On The Go
Overhauling

For us, equipment should be the last problem for our customers. Our commitment is to offer the latest technology and to customize our products to provide the solution that our customers need, providing warranty on spare parts and labor for one year. Furthermore we understand that work can't be stopped. Therefore, our On-the-Go contract guarantees a solution to any problem that may arise after that first year, and before 72 hours from notification, as well as a continuous preventive maintenance.

Our value-added service helps customers overhauling their old machinery and managing and planning the lifetime of their fleet. Our value proposal also includes the possibility of leasing or financing our equipment to ensure that funding will not be a problem.

Construction

Multiminnig

Self-loading mixers	
Output capacity	1 - 5 m ³
Transmission	Hydrostatic
Cabin	Rops - Fops

EMA	
Output capacity	1 - 5 m ³
Drum rotation	Hydraulic 180°
Time per cycle	7 / 10 minutes

Eurosilos	
Storage capacity	20 - 60 Tn
Conveyor capacity	20 m ³ /h
Power supply	380 V - 50/60 Hz

Silmatic	
Storage capacity	20 - 77 Tn
Conveyor capacity	20 m ³ /h
Power supply	380V - 50/60 Hz

Batching plants	
Number of hoppers	2 / 3 / 4
Storage capacity per hopper	8 m ³
Power supply	380 V - 50/60 Hz

Huron	
Output capacity	2 - 5 m ³
Transmission	Hydrostatic
Steering	4x4
Driver place	Rops - Fops

Robots de gunitado	
Reach	From 3 to 14 metres
Work	Dual
Pumping Capacity	20 - 30 m ³
Driver place	Rops - Fops

Scaler	
Transmission	Hydrostatic
Driver place	Rops - Fops
Jackhammer	Atlas Copco SB - 152

Anfox	
Transmission	Hydrostatic
Driver place	Rops - Fops
Anfo's tank capacity	500 l

	Transporter	Scissor Lift	FOX
Loading capacity	10.000 Kg	3.000 Kg	1.465 Kg
Transmission	Hydrostatic	Hydrostatic	Hydrostatic
Driver place	Rops - Fops	Rops - Fops	Rops - Fops

International vocation

Maquinaria Lorenzana had a clear international vocation from the get go. Our equipment is working in 35 countries in all continents. Aware of the need to be more present and closer to our customers in the global market, since 2012 we have continued our international expansion opening new offices and workshops for assembly and maintenance in Chile and Mexico, and planning to open an office in SEAP in the forthcoming years.
